On need pilvelõhkujad, mis uhkelt taeva poole kõrguvad? Suurlinna kutsuvad tuled, mis lubavad põnevaid seiklusi? Ei, need on hoopis **OCTO** sarja silmapaistvad ja erilise disainiga tooted, mis pakuvad väljakutset suurematele lastele ja noorukitele.

Sari sai nime uudsetest kaheksanurksetest pulbervärvitud alumiiniumpostidest, mis oma soliidse halli värvitooniga sobituvad ka kõige modernsemasse keskkonda. Akrüülklaasist paneelid vaid süvendavad muljet klaasitud kõrghoonetest, reaalsuses on tegemist sama tüüpi vastupidavate klaaspaneelidega, mis tuttavad hokiväljakutelt.

OCTO sari on nagu suurlinn, kus igaüks tunneb, et just tema suudab siin läbi lüüa! Kes on kõige lahedad, kes kõige kiirem? Kellest saab liider, kes julgeb võtta riske? Noored ei kahtle endas, nad tulevad ja kogevad, loovad ja vallutavad. Tooted on möeldud

pakkuma arendavat tegevust ja füüsилist pingutust suurematele lastele, kelles põleb soov end proovile panna. Sarja toodetel saab testida vastupidavust, koordinatsiooni, tasakaalu ja kindasti ka julgust. Samal ajal on atraktsioonide kasutamine ohutu ning pakub turvalist mängurõõmu.

Uuendusliku disainiga sarja tootevalik laieneb pidevalt, valida saab suuri ja võimsaid megakomplekse, erinevaid ronilaaid, spinnerid, šeikerid, kiigekonstruktsioone jne. Nii saab erinevatesse keskkondadesse luua sobiva mänguväljaku, mis toob noored kokku, pakub neile eakohast tegevust, füüsилist pingutust ja rõõmu igast väiksemastki eneseületusest. Uus kohtumispaiak on sündinud? Miks mitte!
