## Farmlife

Welcome to our enchanting world of Farmlife, where imagination takes root and adventure grows! Our farm-themed playground series is a delightful fusion of play and nature, designed to transport children to the heart of a vibrant and interactive farm experience. As the sun-drenched fields and cheerful barns come to life in a captivating play environment, young explorers are invited to embark on a journey that combines the joy of play with the wonders of farm life.

In this series, we've meticulously crafted a range of play structures that pay homage to the charm and excitement of the countryside. From whimsical sand play to interactive animal sculptures, every element is thoughtfully designed to inspire creativity, foster social interactions, and provide endless hours of laughter-filled exploration. As children engage in active play, they'll develop physical skills, cognitive abilities, and a deeper connection to the natural world.

Safety is our utmost priority, just as it is on a real farm. Each play structure within our farm-themed playground series is crafted with precision and undergoes rigorous testing to ensure it meets the highest safety standards. Parents and caregivers can relax knowing that their little ones are free to roam, learn, and grow in a secure and nurturing environment.

Join us as we cultivate joy, sow laughter, and reap unforgettable memories on our farm-themed playground series. Whether it's tending to a make-believe garden, clambering up a haystack, or imagining life as a friendly farm animal, children are invited to let their imagination flourish and harvest the magic that only a farm-inspired playground can provide.

Did you know ...  
that huskies are  
infamous escape artists  
that can find a way out  
of everything.

### Description

Slope slide HUSKY is a 1.5 metre high slide with a platform, suitable for slopes. This adorable slide has a husky design that captures the spirit and energy of this beloved breed. With its perky ears, friendly face, and bushy tail, it's an irresistible invitation to play.

### Material

Product frame, support beams and metal details are made of hot-dipped galvanized steel, all fixing accessories from stainless steel. All side panels are made of 15 mm HDPE. The slide has got a stainless-steel sliding surface, which can be replaced by HDPE in case requested. Product's ground fixings are made of hot-dip galvanized metal and as standard solution it is concreted into the ground.

## FARM1

### Farming complex small

#### Description

“Farming complex small” is an engaging outdoor play structure designed to provide children with an enriching opportunity to fully engage with and learn about farm life, typically through hands-on activities, role-playing and games. It is a versatile combination of farm-themed play and sensory exploration.

This play equipment features an educational activity panel and printed panels with horse, chicken, and grain storage images. Additionally, there are sand-play elements, including two sandboxes, a bucket on a rail, and a sand chute.

#### Material

Product frame, support beams, fixing accessories and metal details are made of stainless steel. Printed wall panels are made of 12 mm printed and laquered plywood and edges are covered with metal profiles. Plastic wall panels are made from 15mm HDPE plastic. Platforms and ramp are made from rubber-coated slip-resistant 19mm plastic. Product's ground fixings are as standard solution concreted into the ground.

Did you know ...  
that horses can't  
see their own nose  
because their eyes  
are located on two  
different sides.

**Did you know ...**  
that sheep have  
rectangular pupils with  
field of vision within  
270 to 320 degrees.

## FARM2

### Farming complex medium

#### Description

“Farming complex medium” is a versatile outdoor play structure, where kids can explore, engage, and learn through variety of farm-themed elements. It is a multifunctional play structure, with sand and role play elements, a climbing net, and a rope ladder. Sand play units include two sandboxes, a bucket on rail and a sand chute. The farm shop is equipped with images of different farm products, a realistic shop till and a scale to weigh. Additionally, there are printed panels with colourful descriptions of farm animals, including goats, pigs, horses, and chicken.

#### Material

Product frame, support beams, fixing accessories and metal details are made of stainless steel. Printed side panels are made of 12 mm printed and laquered plywood and edges are covered with metal profiles. Plastic side panels are made from 15mm HDPE plastic. Platform is made from rubber-coated slip-resistant 19mm plastic. Net and ladder are made from 16mm six-strand PES cover braided steel rope and plastic connectors and rungs. Product’s ground fixings are as standard solution concreted into the ground.

## FARM3

### Farming complex large

#### Description

“Farming complex large” is an engaging outdoor play structure designed to provide children with an enriching opportunity to fully engage with and learn about farm life, typically through range of activities and role-playing and games. This play equipment features two educational activity panels and printed panels with horse, chicken, goat, and grain storage images. There are several sand-play elements, including two sandboxes, a bucket on a rail, and a sand chute. Additionally, there’s a ramp that leads to an elevated platform. On this platform, children can enjoy a slide and a crawl tunnel.

#### Material

Product frame, support beams, fixing accessories and metal details are made of stainless steel. Printed wall panels are made of 12 mm printed and laquered plywood and edges are covered with metal profiles. Plastic wall panels are made from 15mm HDPE plastic. Platforms and ramp are made from rubber-coated slip-resistant 19mm plastic. The slide has got a stainless-steel sliding surface, which can be replaced by HDPE upon request. Product’s ground fixings are as standard solution concreted into the ground.

Did you know ...  
that kids should  
learn about farming  
because it helps them  
understand where  
food comes from...

... that carrots don't just  
magically appear in the  
grocery store but grow  
in the ground, and milk  
doesn't come from a  
carton but is produced  
by cows.

Did you know ...  
that goats love to  
climb and explore.  
In fact, they can  
even climb trees.

FARM4

## Sand play BARN

### Description
