MULTIJUEGOS

Opciones de materiales

Los productos Tiptiptap son seguros, duraderos y de alta calidad. Al crear un nuevo producto, pensamos en los futuros usuarios: debe ser seguro, cumplir su función, ser divertido y visualmente atractivo.

Nuestra línea estándar emplea postes de madera laminada encolada (MLE), tratados mediante un proceso de impregnación a presión con agentes fungicidas y protectores contra la descomposición biológica. Posteriormente, se aplica una imprimación con conservante incoloro, seguida de un acabado con dos capas de recubrimiento exterior translúcido de alta resistencia para uso en exteriores.

Todos nuestros productos también están disponibles en versión libre de mantenimiento (MF). Las estructuras principales de esta gama están hechas de aluminio. Las plataformas, escaleras, rampas y pendientes están recubiertas con un revestimiento plástico elastomérico UV de 2 componentes, antideslizante y resistente al desgaste.

|                     | PE (estándar)                         | MF (libre de mantenimiento)            |

## Una empresa familiar que creció junto a sus miembros más pequeños de la familia

Los estonios estamos acostumbrados a pensar varios pasos por adelantado. En 2003, mientras esperábamos el nacimiento de nuestra hija, mi esposa Kadri y yo empezamos a planificar y diseñar nuestro propio parque infantil en el jardín. Pero la oferta de juegos infantiles era casi inexistente. Como padre, haces todo por tu hijo, así que obtuve las herramientas y materiales necesarios y me puse manos a la obra.

Consulté con mi esposa, pedí ayuda a un amigo y, juntos, nos entusiasmos tanto que en vez de un juego hicimos dos. Llevamos la que sobraba a una feria local, donde nuestro producto artesanal encontró rápidamente un nuevo dueño. Además, recibimos muchos elogios y gente interesada en saber dónde se podían comprar esos productos. Al final del día, decidimos iniciar la producción. Así nació Tiptaptap.

Cuando nuestra pequeña hija comenzó a caminar, la empresa fundada por sus padres ya caminaba por sí misma. Tiptaptap ha crecido al mismo ritmo que Marii y su hermano menor Rasmus Jr., quienes siguen siendo fuentes de inspiración y pequeños experimentadores de los productos de nuestra empresa familiar.

Como la seguridad es nuestra prioridad, inicié el negocio informándome a fondo sobre la seguridad en áreas de juego y las normas del sector. Todos los productos Tiptaptap son seguros para los niños y cumplen con los requisitos normativos. Esto es lo más importante para mí, tanto como padre de familia como director general de la empresa.

Actualmente, Tiptaptap exporta principalmente a Europa, pero también a Asia, Sudamérica y Emiratos Árabes Unidos. Nuestra línea de productos en constante expansión nos permite ofrecer atracciones adaptadas a diferentes climas y culturas. Como decimos en Estonia, nuestros productos están probados en las cuatro estaciones: tenemos primaveras ventosas, veranos soleados, otoños lluviosos e inviernos nevados.

Los niños estonios también conocen bien los parques infantiles Tiptaptap, ya que somos referentes y líderes del mercado en nuestro país de origen. Hemos creado esta empresa con el mismo cuidado y amor con el que se cría a un hijo. Esa es nuestra fórmula del éxito.

Rasmus Varunov  
Director General de Tiptaptap

## ¿Quiénes somos hoy?

Nos sentimos muy orgullosos de nuestra artesanía, diseñando y construyendo con esmero parques infantiles, skateparks y mobiliario urbano que superan los estándares del sector. Nuestro compromiso con la excelencia se refleja en cada detalle: desde la robustez que garantiza la durabilidad, hasta los diseños atractivos que invitan tanto a niños como a adultos a disfrutar de actividades saludables al aire libre.

La seguridad está en el centro de nuestra filosofía. Nuestros productos se someten a rigurosas pruebas en diversas condiciones climáticas, lo que garantiza su resistencia y fiabilidad. Los padres pueden estar tranquilos sabiendo que sus hijos juegan en equipos que cumplen con los más altos estándares de seguridad.

Visite nuestra fábrica, un centro de innovación y precisión. Nuestras modernas instalaciones están equipadas con tecnología de última generación, incluyendo cortadoras láser CNC 3D y 2D. Estas herramientas permiten moldear metales y plásticos con una precisión inigualable, haciendo realidad diseños complejos y asegurando que cada componente encaje a la perfección.

La eficiencia es el corazón de nuestras operaciones. Nuestro equipo experto, dotado con las herramientas

más avanzadas, orquesta un proceso de producción eficaz que garantiza la entrega puntual sin comprometer la calidad. Cada proyecto es testimonio de nuestra dedicación, transformando materias primas en obras funcionales que embellecen parques, áreas recreativas y espacios públicos.

En un mundo donde las experiencias al aire libre son más valiosas que nunca, nos mantenemos como referentes de ingenio y maestría. Nuestros parques infantiles, skateparks y muebles urbanos invitan a las comunidades a conectarse, jugar y crear recuerdos duraderos en armonía con la naturaleza. Descubra la diferencia de productos nacidos de la pasión, la innovación y un firme compromiso por enriquecer la experiencia al aire libre para todos.

# Planificador 3D de Tiptaptap

Presentamos nuestro intuitivo Planificador 3D Tiptaptap: una herramienta revolucionaria diseñada para dar vida a tus ideas de parques infantiles como nunca antes. Con este innovador software, puedes transformar tus ideas en diseños 3D interactivos y realistas, permitiéndote crear espacios de juego funcionales, seguros y visualmente atractivos con facilidad.

Ya seas arquitecto, diseñador o gestor de áreas recreativas, nuestro planificador 3D te ofrece una plataforma fácil de usar para explorar, experimentar y visualizar el entorno de juego perfecto. Desata tu creatividad, optimiza el proceso de planificación y

embárcate en un recorrido virtual para crear parques que inspiren y diviertan. Adapta tu parque a diferentes grupos de edad, temáticas y requisitos de seguridad, todo desde la interfaz intuitiva del Planificador 3D. Además, este software va más allá de lo estético: emplea algoritmos avanzados para garantizar el cumplimiento de la normativa EN1176, guiándote en los detalles técnicos del diseño. Te muestra dónde puedes superponer productos y dónde no está permitido según la normativa.

## 1. Define el área

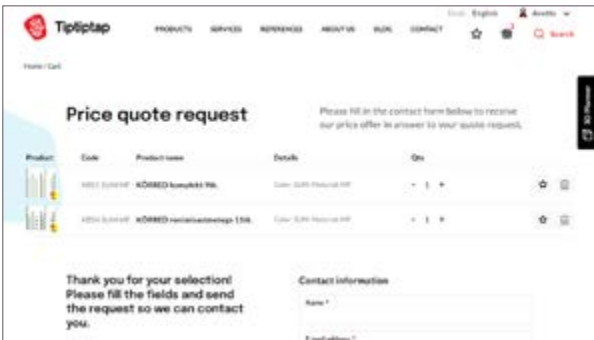

Diseñar un parque completo con el planificador 3D de Tiptaptap es fácil. Puedes ubicar el lugar usando Google Maps y trazar el área deseada, o simplemente introducir las dimensiones del terreno.

## 2. Añadir productos

Selecciona y añade los productos adecuados simplemente arrastrándolos desde el menú desplegable. Cada equipamiento incluye su zona de seguridad preconfigurada, que evita colocar elementos en lugares no seguros (señalados en rojo si es necesario). Esto asegura que tu diseño sea tanto creativo como conforme a las normas de seguridad.

## 3. Finalizar

Una vez creado el diseño ideal, el planificador 3D integra los productos elegidos en el carrito de compras. Puedes guardar tu diseño para futuras revisiones o modificaciones. Esta herramienta te permite visualizar tu proyecto de forma completa y eficiente, sin dejar ningún detalle al azar.

# Prácticas empresariales sostenibles

Las expectativas sociales hacia las empresas han cambiado, y en Tiptiptap también tomamos medidas para mejorar el mundo para todos. Reconocemos que la acción en un área afecta a otras, y que el desarrollo debe equilibrar la sostenibilidad social, económica y ambiental. Según las Naciones Unidas, la sostenibilidad —también conocida como los Objetivos de Desarrollo Sostenible (ODS)— significa satisfacer las necesidades y aspiraciones de la generación actual sin comprometer la capacidad de las generaciones futuras de satisfacer las suyas. En el ámbito empresarial, la sostenibilidad se describe a través de tres dimensiones: factores ambientales, factores sociales y de gobernanza, conocidos colectivamente como los principios ESG. Estas tres categorías ayudan a las empresas a definir su responsabilidad hacia el medio ambiente, los empleados, los clientes y la sociedad en general.

Objetivos de Desarrollo Sostenible de la ONU:

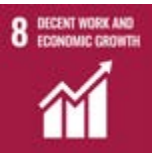

## Actividades y objetivos ODS de Tiptiptap

**Salud y bienestar (UN SDG3)**  
Tiptiptap ha mejorado las condiciones laborales de sus empleados mediante soluciones modernas y saludables. Nos trasladamos a una nueva fábrica con espacios de trabajo mejorados, cocinas modernas, saunas y sistemas de ventilación que aseguran aire fresco y reducen el riesgo de enfermedades. Los empleados tienen acceso a una sala de descanso, una silla de masajes y un gimnasio al aire libre. Nuestro objetivo es minimizar los riesgos de salud y fomentar el bienestar. Además, promovemos el desarrollo del personal ofreciendo formaciones, prácticas e instancias de aprendizaje. También proporcionamos ropa y equipos de protección que cumplen con las normas ambientales.

**Educación de calidad (UN SDG4)**  
Tiptiptap contribuye a la educación de calidad a través del desarrollo de productos educativos como paneles de actividades que apoyan el aprendizaje infantil. También apoyamos la formación de jóvenes al acoger en prácticas a estudiantes de escuelas de construcción.

**Trabajo decente y crecimiento económico (UN SDG8)**  
Damos prioridad a condiciones laborales dignas y crecimiento económico. Nuestro objetivo es alcanzar tolerancia cero ante accidentes laborales y crear un entorno seguro y respetuoso. Aspiramos a reducir los accidentes en un 25% y lograr cero accidentes antes de 2028.

**Producción y consumo responsables (UN SDG12)**  
Implementamos programas de producción y consumo sostenibles. Nuestro objetivo es reducir la generación de residuos en un 25% para 2028 y reciclar el 90% de ellos. Apostamos por la economía circular, ofreciendo a los clientes la opción de renovar equipos en lugar de desecharlos. También reutilizamos pelotas de tenis recicladas para superficies de seguridad y papel triturado como material de embalaje.  
Objetivos:

- Lograr una gestión sostenible y uso eficiente de los recursos naturales para 2030.
- Dirigir el 90% de los residuos hacia el reciclaje en economía circular para 2028.
- Reducir el desperdicio de alimentos y garantizar el tratamiento seguro de productos químicos y residuos conforme a las normas internacionales.

**Biodiversidad y ecosistemas terrestres (UN SDG15)**  
Solo utilizamos madera con certificación FSC y PEFC, lo que garantiza que procede de bosques gestionados de forma responsable. Nos comprometemos a preservar la biodiversidad y apoyar la sostenibilidad de los ecosistemas. Verificamos que los materiales y componentes de nuestros socios cumplan realmente con los requisitos establecidos.  
Objetivos:

- Reducir los residuos de madera en un 30% para 2028.
- Asegurar que el 100% de la madera utilizada tenga certificación FSC.

Tiptiptap está firmemente comprometida con una gestión responsable y sostenible que tenga en cuenta todos los principios ESG. Nuestro objetivo es mejorar continuamente nuestra estrategia de sostenibilidad, promover el bienestar de los empleados y crear valor para todos los grupos de interés. Seguimos comprometidos con los Objetivos de Desarrollo Sostenible de la ONU y con actuar de acuerdo con las mejores prácticas internacionales.

# TRIBUTE TO WILDLIFE

## Nuestra gente

Cuidamos de nuestra gente: nuestros empleados, socios comerciales, distribuidores y proveedores. La seguridad comienza con un entorno de trabajo seguro. Brindamos conocimientos y conciencia para prevenir accidentes, de modo que cada persona asuma la responsabilidad de trabajar con seguridad.

En TiptiTap, nos preocupamos por nuestro planeta y valoramos tanto el medio ambiente como a las personas.

## Desarrollo sostenible

Nuestra empresa se basa en el desarrollo sostenible, combinando recursos renovables como la madera con el uso de polietileno y aluminio reciclados para crear productos duraderos y de bajo mantenimiento. En TiptiTap, diseñamos y fabricamos productos para que duren. Ampliar la vida útil es una de las formas más efectivas de reducir el impacto ambiental.

Nuestros productos de madera provienen de bosques gestionados de forma responsable, cumpliendo criterios ecológicos, sociales y económicos. Están certificados por FSC y PEFC.

Nuestros plásticos HDPE incluyen un 70% de material reciclado derivado de residuos de producción.

Casi el 60% del aluminio utilizado por nuestros proveedores es reciclado, también procedente de residuos de producción.

## Reducción de residuos

Nuestro equipo de diseño garantiza el uso óptimo de los materiales y la reducción de residuos. El 99% de nuestros residuos de producción se reincorporan al proceso o se reciclan a través de nuestra red de socios, dándoles así una nueva vida.

## Reducción de CO<sub>2</sub>

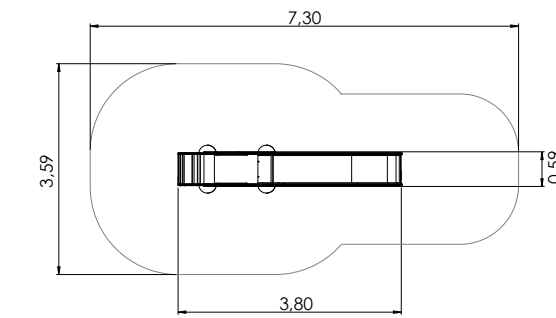

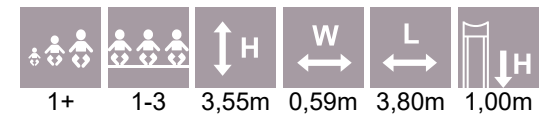

Trabajamos a diario para optimizar nuestra cadena de suministro y minimizar las emisiones de CO<sub>2</sub>. Nuestro camino hacia la sostenibilidad demuestra cómo las decisiones responsables pueden ir de la mano con el progreso y el respeto por el medio ambiente.

Cubierta de caja de arena fabricada con malla de PVC para exteriores de alta durabilidad. Esta cubierta evita que los animales accedan a la arena y previene el crecimiento de moho. Un cordón de goma resistente pasa por ojales metálicos en el borde cosido, lo que ayuda a fijar la cubierta de manera segura a la caja de arena. El material es muy resistente, extremadamente resistente al desgarro y no se deshilacha, incluso si se daña por fuerzas externas. También se pueden imprimir otros diseños en la cubierta, como el nombre del jardín infantil o del grupo.

ELEMENTOS DE JUEGO

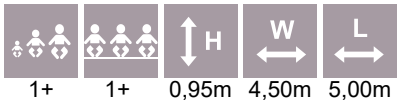

ELEMENTOS DE JUEGO

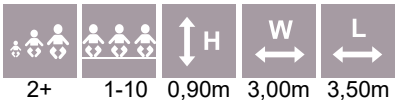

¡Los animales de goma en 3D del parque infantil son auténticos imanes visuales! Estas criaturas coloridas y llamativas atraen irresistiblemente a los niños. Los pequeños no dejarán pasar ni una oportunidad para subirse a estos animales de goma, que estimulan su imaginación y crean un entorno de juego divertido. ¿Quién no querría volar sobre una mariposa, montar sobre el lomo de un enorme perro, abrazar a un delfín o arrastrarse dentro de una concha marina?

Los niños pequeños se emocionan con este mundo tridimensional que transforma el parque infantil en una experiencia envolvente gracias a los animales de goma en 3D. Aunque normalmente están fijados al suelo, también pueden colocarse sin anclaje, lo que permite reorganizarlos para crear nuevas y emocionantes zonas de juego.

# SUPERFICIES DE SEGURIDAD - EPDM

El granulado EPDM cumple con la norma de seguridad EVS-EN 1177:2018 para superficies de juegos y cuenta con la certificación TÜV correspondiente. La superficie de caucho vertido es duradera, resistente a la intemperie, requiere poco mantenimiento y permite el paso del agua.

Se pueden diseñar superficies de seguridad multicolores para parques infantiles, pistas de atletismo, etc., utilizando granúlos de caucho EPDM de colores. Las superficies de caucho EPDM están disponibles en múltiples tonos, lo que permite crear bases lúdicas y vibrantes. Además, se pueden incorporar diseños en 3D dentro de la capa de caucho.

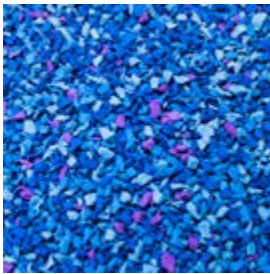

Características de las superficies EPDM:

- Resistencia a la intemperie
- Alta durabilidad
- Permeabilidad al agua
- Bajo mantenimiento
- Amplia gama de colores
- No requiere sustitución como la arena, por ejemplo
- Se puede instalar sobre superficies sólidas (asfalto, hormigón, grava compactada de grano fino)
- Fácil instalación en patrones ondulados

La instalación se realiza en dos capas: la primera es de caucho SBR negro que proporciona suavidad, y la segunda es una capa superior de granúlos EPDM de colores.

Para su instalación se requieren condiciones secas y una temperatura mínima promedio de +5 °C durante 24 horas. Para el mantenimiento, se puede utilizar lavado a presión para eliminar la suciedad. Los restos, hojas y similares se eliminan con cepillo o soplador de hojas.

Colores EPDM mezclados más populares

Ocean mix

Desert mix

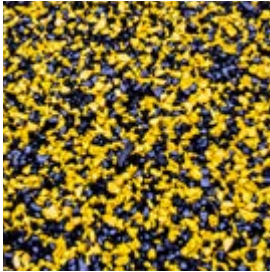

Rainbow mix

Lava mix

Green and black mix

Yellow and black mix

Hay muchas más opciones de color. Consulte con su representante de ventas de Tiptiptap para más información.

## SKATEPARKS

## Tiptiptap Skateparks

Con más de 15 años de experiencia, Tiptiptap ofrece hoy más de 200 soluciones diferentes. Nuestros skateparks han sido desarrollados en colaboración con riders profesionales que conocen a fondo las exigencias del BMX, monopatín, scooter, patines en línea y más.

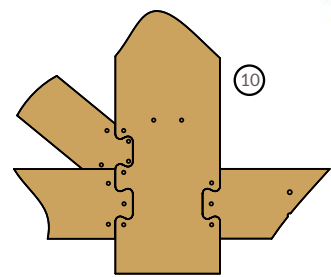

Usar un skatepark es muy divertido, pero debe ser seguro. Nunca comprometemos la seguridad. Por ello, todos nuestros elementos están fabricados conforme a la norma europea de seguridad EN 14974 y cuentan con la certificación de TÜV SÜD GmbH.

La gama de productos incluye elementos con estructura de acero o madera, con superficies de contrachapado fenólico impermeable o recubrimientos profesionales compuestos, todos de alta calidad y resistentes a la intemperie. Nuestros skateparks evolucionan según las necesidades y deseos de nuestros clientes, incluso los más exigentes.

### Base / Base+

1. Barandilla de seguridad de acero galvanizado en caliente.
2. Capa superior:  
**BASE:** Contrachapado impermeable con película fenólica antideslizante  
**BASE+:** Superficie profesional para patinaje
3. Capa inferior: Contrachapado impermeable laminado (FF)
4. Vigas de madera secadas, cepilladas e impregnadas. Todas las vigas se montan en un rebaje especial en el contrachapado.
5. Chapa de acero galvanizado en caliente
6. Estructura de contrachapado impermeable laminado (FF)
7. Paneles laterales y traseros decorativos de contrachapado impermeable laminado (FF) de alta calidad
8. Tubo de acero galvanizado en caliente
9. Sistema de unión único para una transición suave entre la superficie de deslizamiento, la chapa de acero y el asfalto u hormigón
10. Todos los detalles estructurales están conectados entre sí mediante un sistema de encaje tipo puzzle que aporta mayor estabilidad y resistencia

### Steel / Steel PRO (Steel PRO es libre de mantenimiento)

1. Barandilla de seguridad de acero galvanizado en caliente
2. Capa superior:  
**STEEL:** Contrachapado impermeable con película fenólica antideslizante  
**STEEL PRO:** Superficie profesional para patinaje
3. Capa inferior y paneles laterales y traseros:  
**STEEL:** Contrachapado impermeable laminado (FF)  
**STEEL+:** HDPE
4. Estructura de acero galvanizado en caliente
5. Chapa de acero galvanizado en caliente

## Soluciones personalizadas de skateparks

En Tiptiptap, nos dedicamos a crear experiencias de skatepark tan únicas como tu comunidad. Nuestros diseñadores e ingenieros están listos para hacer realidad tus ideas, ya sea un parque urbano moderno, una selección clásica de rampas o una combinación exclusiva.

Con un enfoque en la integración fluida, trabajaremos contigo para asegurarnos de que nuestras soluciones a medida encajen perfectamente en tu espacio, creando un entorno emocionante y seguro para skaters de todos los niveles. Nuestro compromiso con la seguridad y la calidad garantiza no solo un parque emocionante, sino también seguro.

Colaboremos para dar vida a tu visión. Desde el concepto hasta la construcción, Tiptiptap está aquí para convertir tu skatepark ideal en realidad. Contáctanos hoy para explorar las infinitas posibilidades de soluciones personalizadas.

## SKATEPARKS

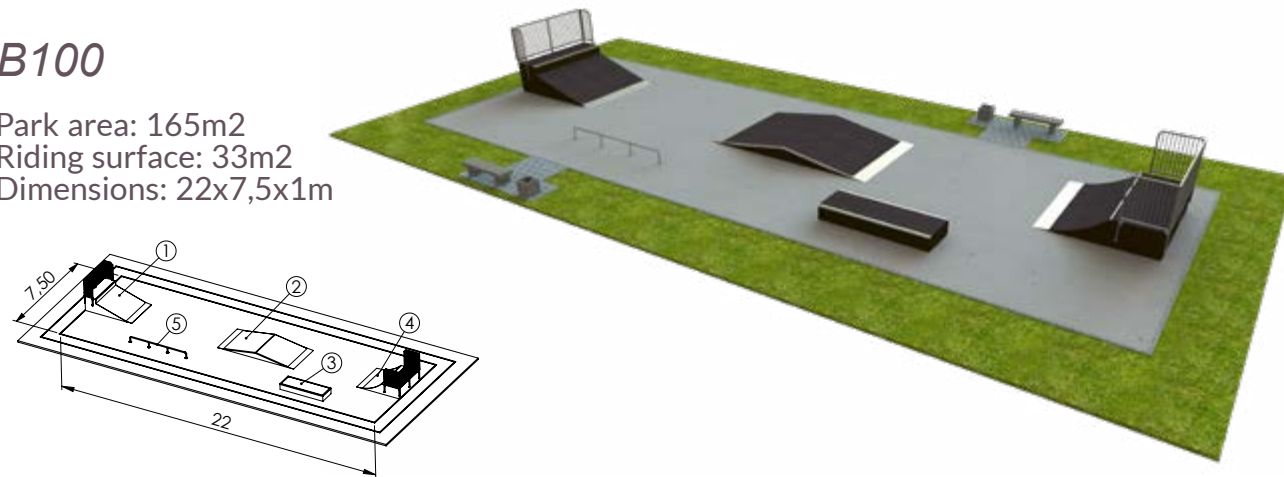

Para facilitar la elección de nuestros clientes, nuestro equipo ha desarrollado más de 40 soluciones de skatepark listas para instalar. Estas son aptas para usuarios de monopatín, patines, BMX y scooters.

Esto puede considerarse un skatepark clásico. La ventaja es que ya han sido diseñados para los usuarios, por lo que solo tienes que elegir el que mejor se adapte a tus necesidades y presupuesto. Estas soluciones listas para usar se pueden instalar en cualquier superficie plana, como hormigón o asfalto.
